Luxury Fixtures, Premium Sanitary & Drains

From the Managing Partner

At Nova, excellence has never been an option, it is our foundation.

Since inception, we have positioned ourselves as more than distributors; we are custodians of the world's most advanced luxury sanitary, fixture, and architectural solutions.

Guided by our ethos, "*Swiss Precision. German Engineering. Italian Design*", we believe true luxury lies in the seamless balance of craftsmanship, technology, and timeless aesthetics. Every product we curate is chosen not just for how it looks, but for how it performs and endures.

By partnering with global leaders such as FIMA, Geberit, ACO, Furaat, Jaquar, Hindware Appliances, Fuji Silvertex, Viking, and Onida, we bring India an unparalleled collection of Luxury Fixtures, Premium Sanitary & Drains. Each brand reflects a dimension of reliability, innovation, and design excellence.

Beyond partnerships, our Nova Bespoke Solutions empower clients to create truly personal experiences, from custom wash basins in over 256 colors to designs tailored in any shape or finish, crafted with the finest materials and engineering precision.

For us, luxury is more than appearance, it is lasting performance, flawless integration, and enduring value. Each solution carries a promise: to enrich modern living with sophistication and sustainability.

Together with our partners and patrons, we are designing the future of living, refined, sustainable, and uncompromising in quality.

Ritesh Rathod, Managing Partner,
NOVA Enterprises

Luxury is lasting performance, flawless integration, and enduring value.

With over 150 years of Swiss precision and innovation, Geberit is a European leader in sanitary technology, trusted for delivering intelligent solutions that redefine modern bathroom design

Our expertise spans piping systems, concealed cisterns, and sanitary wares, combining reliability, efficiency, and refined aesthetics.

From advanced installation systems hidden behind the wall to elegant, high-quality fixtures in front of it, Geberit products are engineered for performance, built to last, and designed to inspire, making us the choice of professionals and homeowners worldwide.

ACO is a global leader in drainage solutions, setting benchmarks in water management with innovative, high-performance systems designed for safety, hygiene, and sustainability.

With a strong focus on surface water drainage, grease and oil separation, building drainage, and stormwater management, ACO combines German engineering with modern design to deliver solutions trusted in infrastructure, commercial, and residential projects worldwide.

Whether it's roads, airports, commercial kitchens, or private homes, ACO systems are built to capture, clean, hold, and reuse water, protecting people, property, and the environment.
